From Indian Farms to Global Markets
Quality in every journey

OUR SUPPLY CHAIN

Built in India. Connected to the world.

Indian farm sourcing coordinated with export-ready handling, then carried through disciplined cold-chain operations to global buyers.

Air and sea freight · Buyer-ready documentation

01 · FRESH PRODUCE

Fresh produce and coconuts, handled for distance

Selected for appearance, maturity, and export readiness. Prepared for bulk movement with buyer-specific grading and packing.

Specifications confirmed per order: item, grade, origin, pack size, and destination.

Shelf-life managed through harvest timing, packhouse handling, and temperature discipline.

Bulk packaging options: cartons, crates, sacks, and buyer-specified formats.

02 · FROZEN FRUITS & VEGETABLES

Frozen fruits and vegetables, ready for reliable supply

UNAVU supplies frozen fruit selections and mixed vegetables for foodservice, retail, and ingredient buyers.

Product selection, cut, pack size, glazing, storage, and destination requirements are confirmed per order.

Buyer-confirmed formats include IQF-style pieces, mixed packs, and bulk formats when specified.

Packaging and handling are aligned to the confirmed product and destination requirements.

02 · INDIAN SPECIALTIES

Indian coffee and traditional jaggery

Wholesale selections with the documentation, formats, and destination-ready packing procurement teams need.

Bulk formats with private-label and destination-ready packing by request.

Coffee beans

Premium Indian Arabica and Robusta selections for wholesale buyers.

Jaggery

Organic blocks and powder for foodservice, retail, and ingredient applications.

Buyer-aligned detail: Grading details, roast profile, lot information, and documentation aligned to buyer needs. Moisture standards and COA requirements confirmed against the purchase specification. Bulk formats available with private-label and destination-ready packing by request.

03 · FROZEN SEAFOOD

Fresh seafood and shrimp for global buyers

High-grade frozen seafood and shrimp for wholesale and foodservice supply, prepared for international transit.

Product form, size count, glazing, pack weight, and destination requirements confirmed per order.

Handled for continuity

Hygiene, temperature control, HACCP-aligned handling, and export-grade packaging support quality from processing facility to receiving port.

Ready for the order

Export documentation and destination requirements are confirmed before movement begins.

Fresh-cut flowers, moved with care

Floriculture export varieties selected for freshness, stem quality, and presentation.

Air-freight planning and temperature-controlled transit protect time-sensitive delivery windows.

Packaging and hydration methods matched to variety, destination, and buyer program.

Freshness guarantee supported by disciplined handling and dispatch coordination.

OUR CONSUMER BRAND
